

DIY Shamrock Necklace

Instructions

You will need:

- Twine
- PrintWorks® Bright and Pastel Cardstock
- PrintWorks® Bright or Pastel Multipurpose Paper
- A desktop cutting machine OR a craft knife and ruler
- Tape or glue

Instructions, if using a craft knife and ruler:

1. Print the clover template onto 4 sheets of green Cardstock: 2 Bright and 2 Pastel, if you like.
2. Carefully cut out the clovers and center holes using the craft knife - 24 clovers in total
3. Print the spacer template onto 1 sheet of colored Multipurpose Paper
4. Carefully cut out the spacers using the craft knife and ruler - 20 spacers in total.
Alternatively cut from different colored Multipurpose Paper to create a rainbow effect.
5. Curl the spacers lengthwise and secure with glue or a small piece of tape
6. Cut a piece of twine to approximately 41" (104 cm) in length
7. Secure one end of the twine with tape
8. Thread the clovers and spaces onto the twine, one at a time
9. Tie the two ends of the twine together in a secure knot

Instructions, if using a desktop cutting machine:

1. Import the clover template into your cutting software
2. Load green Cardstock onto the cutting mat
3. Cut 4 sheets - 24 clovers in total
4. Import the spacer template into your cutting software
5. Load colored Multipurpose Paper onto the cutting mat
6. Cut 1 sheet - 20 spacers in total. Alternatively cut from different colored Multipurpose Paper to create a rainbow effect
7. Curl the spacers lengthwise and secure with glue or a small piece of tape
8. Cut a piece of twine to 41" (104 cm) in length
9. Secure one end of the twine with tape
10. Thread the clovers and spaces onto the twine, one at a time
11. Tie the two ends of the twine together in a secure knot

4 Leaf Clover Template
